**TKMS and CAE Sign Agreement to Advance Naval Training and Simulation Cooperation**

- ◆ The agreement creates a framework for TKMS and CAE to expand their collaboration on advanced naval training and simulation solutions.
- ◆ The cooperation brings together TKMS's expertise in naval platform design with CAE's global leadership in advanced training, simulation, and mission readiness capabilities.
- ◆ The agreement builds on the companies' existing cooperation under the Canadian Patrol Submarine Project (CPSP) and supports future collaboration opportunities.

**Montreal, May 29, 2026** – TKMS and CAE signed an agreement aimed at strengthening their collaboration on naval training, simulation and operational readiness solutions. The agreement supports ongoing cooperation between the two companies, including activities related to the Canadian Patrol Submarine Project (CPSP) and establishes a pathway for future services and collaboration opportunities.

"Modern naval operations require highly adaptive training environments that evolve alongside emerging threats," said Oliver Burkhard, CEO at TKMS. "This agreement with CAE represents an important step in strengthening our collaboration and expanding our ability to deliver integrated naval training and simulation solutions. By combining our expertise, we are well positioned to support operational readiness and long-term capability development for naval forces operating in increasingly complex environments."

The collaboration enables TKMS's expertise in advanced naval platform design and lifecycle support to be combined with CAE's capabilities in advanced training, mission system support, and long-term sustainment capabilities simulation. The agreement also allows the parties to work more efficiently in exploring and defining future service arrangements.

"Our priority is to ensure global defence forces, including the Royal Canadian Navy, benefit from advanced training, mission system support, and long-term sustainment capabilities," said Matthew Bromberg, President and CEO at CAE. "Achieving this objective depends on pairing advanced technology with highly skilled crews who can fully leverage their systems and respond decisively in dynamic environments."

The collaboration is intended to support the development of advanced training solutions capable of preparing naval personnel to respond to evolving asymmetric threats, including drone swarms, fast inshore attack craft and a

## About TKMS

TKMS is one of the world's leading naval companies with more than 9,100 employees (including temporary workers) at three shipyards in Kiel, Wismar and Itajaí (Brazil), and with locations worldwide. The company is active as a systems supplier for submarines and naval surface vessels as well as for maritime electronics and security technologies. Around 3,300 employees work at the Kiel site, making it the largest shipyard location in Germany. 185 years of history and the constant striving for improvement allow the company to set new standards time and time again. TKMS offers its customers worldwide tailored solutions to meet the highly complex challenges of a changing world. The driving forces behind this innovative energy are the company's employees, who shape the future of TKMS with passion and commitment every day.

## About CAE

At CAE, we exist to make the world safer. We deliver cutting-edge training, simulation, and critical operations solutions to prepare aviation professionals and defence forces for the moments that matter. Every day, we empower pilots, cabin crew, maintenance technicians, airlines, business aviation operators, and defence and security personnel to perform at their best and when the stakes are the highest. Around the globe, we're everywhere customers need us to be with around 240 sites and training locations in over 40 countries. For nearly 80 years, CAE has been at the forefront of innovation, consistently seeking to set the standard by delivering excellence in high-fidelity flight simulators and training solutions, while embedding sustainability at the heart of everything we do. By harnessing technology and enhancing human performance, we strive to be the trusted partner in advancing safety and mission readiness—today and tomorrow.
